SKILLS

AI & Modern Workflow

Cursor, GitHub Copilot, ChatGPT, Claude,
AI-assisted development, prompt
engineering for code review and delivery

Front-End

HTML5, CSS3, Sass, JavaScript (ES6+),
TypeScript, Vue.js, Bootstrap,
BootstrapVue, jQuery, responsive UI

WordPress

Custom themes, Gutenberg & ACF
blocks, Roots Bedrock & Sage, ACF,
Elementor, WPBakery

Stack & Tools

PHP, MySQL, REST APIs, Axios, Git, npm,
Composer, CLI, VS Code, Figma-to-code

EDUCATION

B.Sc. Information Systems
2018

LANGUAGES

Arabic – Native
English – Professional working

STRENGTHS

Self-learning, fast knowledge upgrade,
team collaboration, design-to-production
delivery, open to relocation

Front-End and WordPress developer with 6+ years building production sites for agencies and product teams. I turn Figma designs into fast, editable WordPress themes – custom blocks, Bedrock/Sage setups, and Vue.js apps connected to APIs. I work with AI tools daily to ship cleaner code faster, while keeping the final product maintainable for clients and editors.

EXPERIENCE

Front-End & WordPress Developer
Mirrorful • Full-time

Jan 2024 – Present

- Build advanced WordPress themes on Roots Bedrock & Sage, with reusable custom blocks so editors can assemble dynamic pages.
- Convert Figma designs into pixel-accurate HTML and WordPress themes.
- Use AI daily (Cursor, GitHub Copilot, ChatGPT, Claude) to speed up implementation, refactoring, and QA while keeping the codebase clean and maintainable.

Front-End & WordPress Developer
QLegy • Part-time

Dec 2022 – Present

- Deliver custom WordPress themes from design files using Bedrock/Sage and modern page-builder stacks (Elementor, WPBakery) when the project needs them.
- Implement company and client websites with the right mix of custom theme work and proven plugins.

Front-End & WordPress Developer
Code95 • Full-time

Sep 2021 – Dec 2023

- Shipped client sites on Roots Bedrock & Sage with custom reusable blocks for fully editable, design-faithful pages.
- Built Vue.js application features and integrated them with REST APIs using Axios and BootstrapVue.

Front-End & WordPress Developer
Servmix • Part-time

Dec 2022 – Dec 2023

- Created custom WordPress themes from scratch and extended existing themes with Advanced Custom Fields for client-managed content.
- Converted Figma and PSD designs into production WordPress sites using custom code and page builders when needed.

WordPress & UI Developer
DPM • Full-time

Nov 2020 – Sep 2021

- Built custom themes from scratch and added ACF options so non-technical teams could update layouts and content safely.
- Converted Figma/PSD designs into WordPress themes and launched sites with Elementor and WPBakery.

Junior WordPress & UI Developer
Foraan • Full-time

Mar 2020 – Oct 2020

- Implemented company websites with WordPress, plugins, and page builders, and converted PSD designs into working themes.
